LETTER OF INFORMATION FROM THE CONSULTING ENGINEER'S OFFICE

Hill N' Dale Drainage Improvements

Dear Resident:

The City of Pewaukee will be undertaking a drainage improvements project on Hill N Dale Circle and Bonnie Lane. The improvements will take place west of Hill N Dale Circle, along Hill N Dale Circle to Bonnie Lane, and along Bonnie Lane. Project work will include pond construction, installation of driveway culverts, ditching, and asphalt roadway repairs.

Construction is anticipated to begin approximately May 8, 2023 and be completed by August 15, 2023. Currently, the Contractor intends to begin the clearing and grubbing for the pond the week of May 8, 2023 and then begin construction of the pond the week of June 12, 2023. Contractor intends to begin ditch work and culvert installation along Hill N Dale Circle and Bonnie Lane on July 3, 2023.

The road improvement along Bonnie Lane will be done by an asphalt overlay. The overlay process will be a 1-inch layer of asphalt placed on the roadway. Roadway areas in need of repair along Hill N Dale Circle will receive new asphalt. The roadway reconstruction process will allow for one lane traffic access during construction activities.

In the event that your driveway requires temporary closure, you will receive a minimum of 24-hour notice. The contractor will maintain access to your driveway during non-working hours unless otherwise agreed upon. Access for emergency vehicles, garbage pickup, mail delivery, and school buses will always be maintained. Due to the construction, access may be delayed to your property.

If you have a private sprinkler system, electrical system for lights or invisible pet fence at or near your property line, you must mark its location for the duration of the project. If you do not mark the location and it is damaged during construction, it will be your responsibility to repair the damage. If it is marked and damaged, the Contractor will be responsible for the repair.

The name of the Contractor who is completing the roadway maintenance for this Project is Musson Brothers, Inc. Bob Draths is the Project Manager for Musson Brothers and can be reached at 414-322-9203. In the event that you have general questions regarding the Project, please contact me at 920-287-4107 or dwillman@ruekert-mielke.com.

The City has created a webpage for this project at <https://www.cityofpewaukee.us/533/Hill-n-Dale-Pond>. You may also go to the City of Pewaukee's website at <https://www.cityofpewaukee.wi.us> and click on "Departments", "Storm Water Management", "Current Projects", "Hill n Dale Pond". Periodic construction updates and other relevant information will be posted there.

Thank you in advance for your patience during this construction project.

Respectfully,

RUEKERT & MIELKE, INC.

DeLeah M. Willman, E.I.T.

Project Engineer
